**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Linker on 8/4/2009.

The application has been amended as follows:

Claims 7, 8, 9, 10, 11, 12, 13, and 14 are canceled.

***Allowable Subject Matter***

2. Claims 1-6 are allowed over the prior art.
3. The following is an examiner's statement of reasons for allowance:
4. Claims 1-6 have been allowed due to the fact that the prior art does not anticipate or make obvious the invention of a spinneret plate with multiple non-round holes that are trilobal or multi-armed, where a first row is arranged with identically oriented non-round holes, and a second row offset to the first row, where the positional arrangement of the holes in the two rows is different through a rotation of the holes.
5. The closest prior art of record, Takemoto et al teaches a spinneret plate with offset rows of trilobal holes, where the positional arrangement of every holes differs by a rotation of the trilobal hole, as shown by Takemoto et al in Figure 4B. This differs from

the invention since all of the holes of Takemoto et al are oriented differently by a rotation of the hole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
7. U.S. PGPub 2006/0012072: would not be applied as prior art, but is being noted for the arrangement of the rows on the spinneret plate.
